Key Insights:

- Bikes generated the most revenue of all product categories.
- Sales records indicate that Bikes were the only product in the early years of 2011-2012 before expanding into Accessories and Clothing in 2013-2016.
- Revenue during 2011- 2012 was approximately \$20 million with profit at \$8 million
- Revenue saw an annual increase of \$7 million in 2013 with the introduction of Accessories and Clothing.
- Profit margin data indicates that Accessories are the most profitable currently
- Young Adults (25-34) of both genders are contributing a lesser revenue of \$27 million than adults (35-64) who contribute a revenue of \$38 million
- Of all groups, the female gender contributes the least to overall revenue and profit
- The USA is the most profitable country and generates the most revenue
